

JUNE 2019 NEWSLETTER

The biggest news of this month is, of course, the Annual Meeting and Dinner. We have 50 confirmed reservations for the meeting to be held at the range the afternoon / evening of June 8. The paid reservation buys you a steak dinner and all the fixin's prior to the meeting. The agenda will include old business, new business, elections of officers for the year, and eating.

The next largest news is that work has commenced by the contractor on our multi-purpose building on our property. Clearing is in full swing. The location of the work should not impact range use. However, as with all activities involving firearms, please be aware of the activity and, above all, USE COMMON SENSE! Safety of all has to be our top priority.

JUNE SCHEDULE OF ACTIVITIES

Our facility is growing. There is no comparison to our position today as compared to five years ago. This did not happen by accident. The major leaps forward have been propelled by the hard work and vision of (mostly) two people – our club president Woody Baird and club treasurer Eb Spink. Their desire to manage this club with an eye to the future has guaranteed a pathway to success. It is up to us – the members – to assure that the path remains secure and straight. As hard as the growth of this club has been, it can be destroyed by the negligence and disrespect of our own members.

Attorney General Barr has all the Democrats second guessing which way to jump. The full scale character assassination attempt by the Leftist Media is in full swing and he told them “I don’t care.” In an interview he let the MSM know that he knew he was at the end of his career. Everything he was doing was not with an eye for the future, but for correcting inaction and inappropriate action. There are some things that are way overdue – AT THIS POINT IN TIME. And it does matter.

‘Well, you gonna pull them pistols or whistle Dixie?’
