

FEBRUARY 2020 NEWSLETTER

February...the wicked stepsister of the calendar year. Christmas is over, Spring is nearly sixty days away, and celebrating Valentine's Day with your sweetie may be the only blip on the radar. Winter wants to hang on, re-runs have worn out their welcome, and college football is nearly six months away.

Despite the fact that I have repeatedly chastised and threatened people for doing it, despite the fact that there are signs at the range telling you NOT to do it, in spite of the fact that common sense tells you it is a destructive and dangerous practice, shooters at our club continue to shoot steel targets with RIFLE rounds. The steel targets on the pistol range were donated by a club member only to be wantonly destroyed. Let me reiterate – if you are caught destroying club property, you will be prosecuted! You will lose your membership – FOREVER! If you are there as a guest, your host puts their membership at risk. If any of our members need a refresher course on how to tell the difference between rifles and handguns, please feel free to contact me, Woody, or one of the other club officers.

The weather – rain in particular – has been a major holdup in our building project at the range. Progress, as is evident, has slowed to a crawl...a very slow crawl. The club officers and contractor would like to apologize for the slow progress, but assure the members that, with the return of drier weather, we will move forward. The nearly impassable stretch immediately inside our gate has been remedied by the application of a couple of loads of gravel. Please have patience. Progress never comes easily.

Hopefully, the current impeachment farce is winding down. President Trump will be acquitted and return to the business of running the country – something the Democrats have completely ignored since focusing all their energies on removing a duly elected President. The democrat Fools in Charge, led by Schumer and Pelosi, have already stated that this impeachment effort is not the end. The wheels are already turning – have been turning - behind the scenes to create some type of major diversion. The Democrats must find a way (in their minds) to create some type of a negative diversion that will draw attention from the fact that they have not a single viable candidate on the 2020 stage. The current front-runner is an avowed Communist...calls himself a Democratic Socialist, but...and is grasping at straws. Initially, he had pandered to the Millennials by suggesting AOC, the Wonder Woman (“I wonder what day it is? I wonder if my shoes match?”) for a running mate. Now, word is he has reached out, in desperation, to Michelle Obama. Anything for a vote.

There are three kinds of men. The one that learns by reading. The few who learn by observation. The rest of them have to pee on the electric fence for themselves.

See you at the range.
