

OCTOBER 2021 NEWSLETTER

October, Fall, and NCAA football...hunting season is around the corner. Dove season – lack of shells notwithstanding – is here. One of the things I dearly loved was the challenge that the winged gray rockets presented. All in my past, I'm afraid.

The constant rain has let off. The access road has suffered. There may be a fix on the horizon. There are details and decisions that will need to be made that, of necessity, must involve a club meeting. The details on this meeting are being worked out as this is written. Expect a follow-up notice. THIS IS IMPORTANT and involves the future of our club.

OCTOBER SCHEDULED EVENTS

NO STEEL CHALLENGE – CANCELLED

BOWLING PIN MATCH

OCTOBER 10 @ 2PM Match starts @ 2PM. \$10 entry fee per gun. Eye and ear protection required for participants and spectators. Pre-match safety walk thru and familiarization for new shooters (who are welcome). Contact Woody Baird or Scott Watson for more details. THIS IS THE LAST MATCH OF THE YEAR. The last two have been either washed out or no participation. This may be the deciding factor in continuing this event. See you there – hopefully.

GOLF BALL – RIMFIRE RIFLE MATCH

OCTOBER 24 @ 2PM 100-yard event begins @ 2PM. 200-yard event follows immediately. \$10 entry fee per event. Contact Scott Watson for more details.

READ THIS – I KNOW IT AIN'T YOUR CUP OF TEA, but I want you to try it, Woody! I will pay your entry fee! Shoot the 100-yard match; equipment and ammo provided. The 100-yard event goes fast. Nothing ventured, nothing gained...

Our progress, such that it is, has been at an anemic snail's pace. I, like everyone else in the country, am tired of hearing "due to covid" – but I don't know how else to explain the difficulties encountered. We shall see.

An administration that can display a 3.5 TRILLION-dollar bill and show mathematically that it has ZERO cost to taxpayers has some serious issues, some serious disconnect with reality. Any spending bill that costs trillions will be a financial burden for generations of taxpayers. This defies taxation without representation. This will be taxation without explanation. There is no way to explain or justify some of the garbage that is put forth in this Democrat Wish List. A 95% tax on drugs for senior citizens; .08 cents per mile driven on your vehicle(s); automatic Social Security eligibility for millions who have never contributed...this is just the tip of the iceberg. And it's called an Infrastructure Bill – with actually less than 3% of any spending actually dedicated to any infrastructure improvements. This cannot happen.

As always, this is my opinion. Take it as such.

"You think a hippo isn't fast, you've never tried to beat one back to your rifle at the car."

Peter Hathaway Capstick

See you at the range!
