

JANUARY 2022 NEWSLETTER

If you have difficulty choosing a favorite season, this has been the month for you. Spring, summer, fall, winter...it wasn't necessary to wait long to savor a change in the air and a change of wardrobe. But when all is said and done – we ain't shoveling snow. And that's a plus.

2022 shows promise of being a year of progress and developments for our club. After a couple of years of COVID related delays, fits and starts, the beginning has actually come for the Clubhouse. The hard work of Woody Baird and Scott Watson in getting the fundamentals in order, assuring the capital needed, maintaining all communications, has paid off. Hopefully, by the time you read this, foundation and septic tank work will have begun. This is the precursor of major improvements for our club.

I have compiled a complete schedule of the Steel Challenge and Bowling Pin matches for 2022. I will attach it to this newsletter, either in Word or PDF form. Please save or print this and you will have immediate access to all dates for these events for the year. I will attempt to do the same thing as well with the Golf Ball matches, but need to consult with the shooters first. As in the past, I will continue to post the matches (and the results) on our Facebook page. At

least until the Overlord Zuckerberg decides we are in violation of the Galactic Code.

What is it going to take to stop our members from treating the range like a dump? I want to know. The gate code has been changed. Those that have not paid their dues are – out of luck. If you have paid your dues and need the new code, check with Scott Watson, The Sure Shot, or me. Please – PLEASE – do not share your gate code. Your membership should be held in value. Those that do not value it will leave trash behind and destroy the property that you, as a member, paid for. If you would not hand them the keys to your car or truck, don't give them the gate code.

I have said repeatedly and will again; if the events of last January 6 had been a true insurrection, Conservatives and / or Patriots in some form would still occupy the House. It was not and was never intended to be. It was a crowd pushed to a frenzy by a few deliberately trained and placed people with the intention of causing a media event. A media event that Pelosi and her band of Flying Monkeys could make news, editorials, and pointless investigations into and about endlessly – or at least until mid-terms. If the Congressional Investigation into the events that transpired a year ago is to be honest and transparent, all the evidence must be made available. There are between one and two THOUSAND hours of internal video by the Capitol Police that they refuse to release. The question begs...

Good dogs don't love bad people.
